BATTLES IN MISSOURI!

Col. Siegel's Federal Regiment Defeated and Cut to Pieces!

The telegraph to-day brings us some highly important intelligence from Missouri. Col. Siegel's Federal German Reg-Iment las leen routed and ent to pieces by Gov. Ja kson. The loss on both sides is reported as heavy, but as usual with the Lincoluites, they are greatly exaggerated In regard to the Missonri State troops.

The people of Missouri are thoroughly aronsed, the feeling against their oppressors is universal among them, and ere long we may confil ntly expect to see the perpatrators of the recent outrages at Camp Jackson, in the streets of St. Louis, and wherever the armed minions of the Administration have had power, driven from the soil they have desecrated and from among the people they have madly and wickedly attempted to subjugate.

Of this interference with the rights of the stockholders and the luterests of the public the Journal does not complain, not anathemas to Tennessee, whose action uceds no vindication further than a bare statement of the facts we have given to

ilte Journal entertained Its readers with a fearfully vivid picture of the horrors of war. It was drawn in its most glowing iyle. Promineut amid the scene of ho ors were blazing homes, sacked chies and above all gentle and lovely wives an daughters struggling in the grasp of a bru tal soldlery, or fleeling in dark and storn out the contamination of their touch. All this it warned its readers would b the fate of Kentucky, If she dared to defend her rights against the usurping despot

This invasion of the South is made by urify gentlemen! Here and there possi ly a bad man can be found, by very close earthling in Lincoln's ranks! But the reat body of the Invaders are men of lofty conrage, chivalrous courtesy, and noble patriotlsm! They come as defenders of virtue and protectors of Innocence! It is wonderful that the removal of the then ter of war from Kentucky to Tennersee can so smoothe "war's wrinkled front,"

At a pic-nic near the city, the other lay, the boys, in the morning, shouted "hnrrah for Jeff. Davis." At noon the women folks hurral'd for Jeff. Davis, and In the evening all the men were harrah ing for Jeff. Davis.

The Journal, maybe, thinks that Is tree son, that those who favor or even sympa thize with the South are traitors. The editor would very much like to muzzle the speech, and even thoughts, of the Southern people, if he could, and should call on Brigadier General James Speed, of volunteers formed in Washington county, the Home Guard, to do it. It is very "annoying" to bear the boys shout, "him ra's for Jeff. Davis! hurrals for Jeff. Davis!

Editors Louisville Courier: Seeing in the Journal of to-day a letter signed Cosmo, I isel that I have been in a measure recreant to my patriotism in not before giving to the public what I ("being a blank in the Kestucky State Guard") also know about the treasonable practices and aims of said association. Cosmo tells probably all he knows, but he does not know halt. He is widently from the country, and the country. widently from the country, and the country numbers are not let luto all the secrets. Instead of a site for one masked battery on Muldraugh's Hill, there are to my cerain knowledge sir—viz: two on each side of the tressel work nearest Louisville, and site on each side of the next tressel. But if by any possibility the train should get ever the tressel before belog seen, then the tressel before belog seen, then the tressel he to come down—not however by discountered. the tressel before belog seen, then the tressel is to come down—not however by discharges from the guus (for that would be a waste of anunition), but by axes and sunss. The workmen who are to wield these lustruments of destruction are now on the ground. Any passenger traveling this road can see any day (if he is not too timid to look out of the cars), Irishnea, with axes in their hands he with a tree to the cars. with axes in their hands in "the horrible ravine below." Think of it, Messrs. Editors! a dozen strokes of a vile ax, wielded by a vile Irishman, could destroy "that costly and magnificent structure, the tressel work on this side of the tunnel."

Nor is this side of the tunnel. "And this "recruiting sation" whis "military at this "recruiting sation" whis "military.

Nor is this all that is in contemplation at this "recruiting station," this "military school, supported by Keutucky for the Southern Confederacy." A fort is to be built of solid stone, (the stones are now on the very spot) immediately above the tunnel, on the creet of the bill. The guns mounted on this fort will command the variles on either side, while the three or four shalls into the tunnel are to be used for passage ways for immense pieces of rock to be huried upon "a railroad train, no matter who may be upon it." The shalts are also to be used for hand greundes, to be thrown amongst any hostile soldiers (Linvoin's or Ronsseau's) who may gain access to the immet. The guns for this fort are to be brought from Virginia—they are probably on their way now—from the Gosport Navy Yard (whileh you know was stoken by the Rebels.) When they arrive in Nashville they are to be uncunted on a long train of strongly built flat cars, (some of those stolen by Tennessee from the Nashville road) and so arranged that they can be discharged on either side or both sides of the train in case of an attempt on the part of Union men of Keutucky to take them. One large rifled gun is to be placed on a swivel, on the car, in front of the locomotive, so nen of Kentucky to take them. One arge rifled gun is to be placed on a swivel on the car, in front of the locomotive, so as to open a way for the train. Thus you see, Messrs. Editors, what terrible things are in contemplation by "the men who wear epaulettes on Muldraugh's Hill." I forgot to mention that these men are also buying and stealing all the beeswax in the neighborhood and shipping it South, for the purpose of woxing the thread used in sewing on the "military buttons" mentioned by the Journal.

Messrs. Editors, "discharge your duty in stating facts. Let the proper authorities take the proper action upon them."

Truly yours,

P. S. My name must be supplessed for obvious reasons. It it were known, I would be torn to pieces by "the men who wear epanlettes on Muldraugh's Hill."

A more snieldal policy could not be adopted towards our State than has been pursued by the General Government. Mr. Joseph Laldley, the well known chemist, came to an untimely, sudden and horrible death about 30 minutes to one o'clock yesterday, by the explosion of a quantity of detonating powder, which he and an assistant named Robert Clayton, of Manchester, were preparing for the use of the Confederate Army, in a building erected especially for their use on an eminence in the rear of the State armory, and equidistant between that and Thomas' Factory, where cartridges are now being fabricated for the Government. Within a few yards of the body was found a portion of the poor man's brains, looking as if they had been torn by a superhuman agency from the skull and splashed upon the floor. The entire head, except the lower law, had been blown of, and nothing remained to mark the feature of a man, except a pair of whiskers and a portion of the neck. The right arm was torn off below the elbow, and from the bloody stump hung the fragments of nerves, veins and snews which were left behind. The hand was afterwards found about two hundred yards from the pace of explosion, in the yard of the State Armory, a portion of the face was likewise found (it is said,) three hundred yards distant, near the banks of the river. The organization of the increased force, it will be noticed, is different from that of the old army. This question was fully considered by efficers of the army connected with this department, and after much deliberation it was concluded to adopt the French regimental system of three battallons to a regiment. Each battallon is commanded by a major, with a colonel and lieutenant-colonel for the general command of the regiment. This, it is believed, is the best organization now existing. The number of field officers is less than under the old pian, and, therefore, much less expensive. Whether this organization may not advantageously be extended to the old army, after the passage of a law providing for a retired list, is a question which may properly engage the attention of Congress. From Kansas City, Mo.

Kansas City, Mo., July S.—We are indebted to the Kansas Journal for a copy of the Fort Scott Democrat of the 7th, containing at account of a battle between the Missouri State troops under Gov. Jackson and Gen. Rains, numbering, by their accounts, from 10,000 to 13,000 and the U. S. force under Col. Sigel, numbering 1,500 in all. Our informant says that on Wednesday, the 3d inst., the State troops left Rupe's Point and moved South to Murray's, six miles. On Friday morning at 8 o'clock, they broke up camp and marched South in the direction of Carthage, the county-seat of Jackson county. At Abbay Fork, seven miles miles North of Carthage, they were met by Col. Sigel with 1,500 men, who immediately gave them battle. The first onset resulted in the State troops being driven back some distance, and the officers ordered a retreat. The centre gave wax, but the order not heing heard on the llanks, the advancing U. S. troops were in danger of heing surrounded. The flanks finally fell back, slowly keeping up the fight with their artillery, which inade fearful have annong the enemy's ranks. It is believed that Col. Siegel's object was to draw the State troops on Carthage, when, with 400 reserve troops at that place, when, with 400 reserve troops at that place, and expected reinforcements from Nesho and Sascoxic, he would be enabled to turn and drive back or ront them.

The lose on Jackson's side was very great. Our informant says he counted 70 or 80 wounded left on the field and in houses by the way side. At Dry Fork a large amount of beef was thrown out of wagons, it is supposed to make room for the dead.

Another informant residing at Carthage states that he passed over a part of the battle field yesterday morning, and saw wagons and backs passing in every direction gathering up the dead for interment. The loss on the part of the State troops cannot be less than from 300 to 500. The ground in many places was strewn with dead horses and the stench was sickening. The whole country was laid desolate, fences for down, crojs trampled into the ground, and houses plandered. He met parties of women who stated that everything had been taken from them by the State troops except what they had on their backs.

The retreat was conducted in a style worlby of veteran troops, and with as much coolness as upon parade, it was only the overwhelming odds on the side of the Secessionists that enabled them to carry the day. The victory was really with Siegel. Scrofula, or King's Evil,

It was reported that a night attack had been made on Siegel, and 400 of his troops killed and 600 taken prisoners, with three pieces of artillery, but our informant says he overheard a messenger from the secessian camp say that they had killed only one man, after entering Carthage, and had taken no gues. LATER—July 7, S o'clock, P. M.—A citizen of this place has just arrived, having
left Sherman, Jasper county, at daylight
this morning. He states that after leaving Carthage, Col. Siegel moved two miles
southeast of the town where he encamped
for the night. His command is badly
cut up. His loss is variously estimated
at from 300 to 1,000 and that of the seccestonists from 1,000 to 2,000 killed and
wounded. Col. Brown, with 3,000 troops
from Springfield, is said to have joined Col.
Siegel.

Maj. Sturgis is north of the Osage, and

Gen. Lyon at last accounts was at Warsaw on his way south.

On Friday, the day of the battle, Ben.
McCulloch and Gen. Price arrived at Necosho, 20 miles South of Carthage, with
10,000 men. A guard of 200 men left there
by Siegel, was surrounded and taken prisoners. One report agas that his ween oners. Oue report says that all were nur-dered, and another that but a small portion of them were killed. McCulloch sent for-ward 2,000 men to assist Jackson. He ex-pects 5,000 additional troops from Arkan-sas.

St. Louis, July 10.—The Springfield correspondent of the Democrat, under date of the 6th says, immediately after the arrival, Brig. General Sweeney at Springfield dispatched messengers to Colone's Siegel and Solomen, who were encamped at Neosho, to move their columns to Carthage, which was prompily done.

Last uib ta messenger arrived from Col. Seigel, stating that Jackson and Generals Price and Italias had united their forces, about 4,000 strong, and were encamped about 4,000 strong, and were encamped eight mites North of Carthage. Siegel and Solomon justed forward rapidly and uttacked the telel force only yesterday morning, and continued fighting during the day.

### Our Representative. Mr. MALLORY has made a speech in

Congress. He has taken the ground we told the people he would take. He is in favor of giving men and money, blood and treasure, life and fortune, to

and will soon number the hundred men.
We understand that twenty Keutucky companies are now concentrating at "Catap Boone." They are organized into two regenerate the first number Col. J. M. Hawes, late of the United States Army, the second under Col. Lloyd Tilghman, of Paducah. Capt. Breckurridge's company is lettered C, in Col. Hawe's regiment.
This briegal is the first organized. We support the Administration. Hundreds of thousands of men, hun dreds ou hundreds of millions of precious treasure, years of war and devastation, years of suffering, years o. taxation, years of uncasiness, apprehension, and excitement,-these are some of the sacrifices he ls willing to make to enable the Administration to force ten millions of people to give up the right to govern themselves.

On the Sth of January, Mr. MALLORY resolved that a Union preserved b force was not the Union made by our forefath ere and would not be worth preserving. Now Mr. MALLORT will vote all the mer

and all the money the "enemies of the country" demand with which to attempt the impossibility of restoring and maintaining a Union of incompatibilities at the point of the sword.

This may be what the people of the District wanted when they voted for Mr. Mal-LORY. We think, however, they are get ting more than they bargained for. Read his speech in the telegraph report of the proceedings in Congress

The Journal says that Paducah has for months hen occupied by a State Guard regiment. This statement is incorrect.—Last snumer a company of young men was regularly formed and commanded by Capt. Such an oath would If Col.
